In addition to Georgia, our firm has attorneys licensed to practice in Florida, Alabama and Tennessee.

Dedicated legal services created specifically to meet the needs of the business client

Our Practice Areas

- **Business, Banking, Commercial Litigation and Agricultural Law**

Today's business environments are increasingly complex, so it pays to have the services of an experienced law firm. By complementing our legal expertise with business savvy, we ensure that our clients can make informed decisions that promote a successful business future.

Whether your specific needs involve business and commercial law, banking, commercial litigation, foreclosures or bankruptcy, our team of strong negotiators, powerful defenders and aggressive litigators is ready to work hard on your behalf.

Our agricultural law practice affords unique expertise in federal farm program planning, agricultural litigation and other facets of the law as relates to agriculture.

- **Civil Litigation Defense**

We recognize that litigation is disruptive and can significantly impact a company's business objectives. Our litigation team is proficient in helping clients develop strategies that resolve conflicts fairly, expeditiously and in a cost-effective manner.

Our litigators combine courtroom experience with effective and aggressive preparation to defend clients across the state. Our attorneys provide experience in many areas of the law including employment litigation, worker's compensation, civil rights litigation, insurance coverage disputes, premises liability, toxic tort, automobile litigation, and other civil litigation claims.

Our firm also has experienced, certified attorneys available to handle the mediation and arbitration of civil disputes.

- **Real Estate**

Our full-service real estate practice area encompasses all areas and types of real estate transactions. We routinely handle real estate transactions ranging from complex commercial real estate deals, to large-scale land and timber transactions, to residential home closings.

Real estate legal services include: preparation and negotiation of contracts, title examinations, closings (residential, commercial, and agricultural), issuance of owner's and lender's title insurance, and comprehensive representation of developers of residential subdivisions, commercial properties, and condominiums.

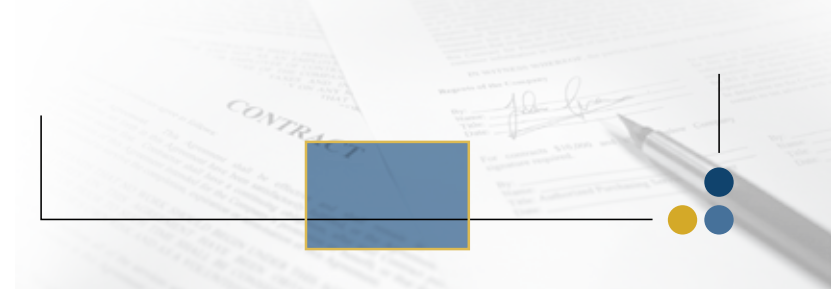

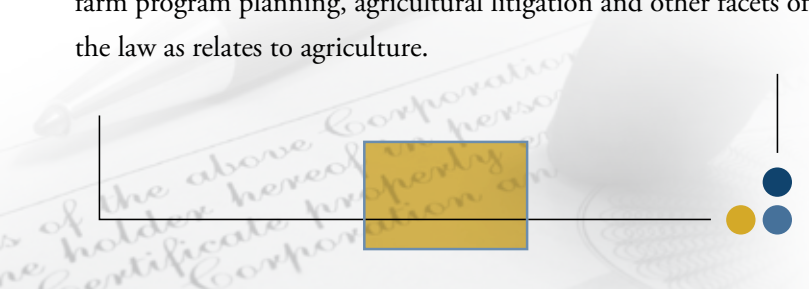

We understand your need and desire for high-quality legal services provided in a responsive, timely, and efficient manner. Whether we represent the developer, builder, buyer, seller, real estate agent, relocation company, or lender, our firm is uniquely qualified and experienced to provide savvy legal representation to help accomplish all of our client's real estate objectives.

- **Estate Planning, Estate Administration and Taxation**

A major concern for many people is ensuring that their hard work survives their death. Our clients depend on us for complete estate planning strategies that protect their interests and objectives now and in the future, including the preparation of wills, trusts and other documents, as well as creating family limited partnerships and other entities.

For business owners, it is particularly important to work with a firm that understands business succession, asset preservation and the probate process to ensure your wishes are carried out.

We also offer expert assistance with tax law compliance. Tax law is a highly specialized field with a multitude of types of taxes and changing laws. Our attorneys work to proactively minimize risk and maximize the company's ability to meet business objectives.
